

COMPANY PROFILE

Vision :

ANATEK was born with a vision. To achieve excellence in service by providing high quality Analytical Instruments and Technical Services.

In the past, before ANATEK was formed, many reputed manufacturers restricted their activities only to the sales of instruments without providing proper service and technical support to their customers. This in turn led to customer dissatisfaction. Thus ANATEK was borne to address such problem. Ever since its inception in 1990, the company has grown by leaps and bounds.

Philosophy :

ANATEK has always been customer centric. The company started its activities with world known instrument manufacturer, M/s. JASCO International Co. Ltd, Japan and mainly focused on providing personalized and quality service to customers. Quickly the company began to grow and over the years earned a reputation for world class quality and uncomparable service. Today ANATEK has a team of highly dedicated and professionally trained technical staff who offer prompt and efficient service through its all India network. Spares are stocked for any immediate requirement. In the last nearly nineteen years the company has taken a gigantic leap because of its customer-centric philosophy, and strong Application support.

Recently ANATEK has added 3 more principals to complete the range of products. They are KYA Technologies, Japan, Biologic Science Instruments, France for Stopped Flow Module, Raman System (Agiltron) U.S.A for palm size, portable Raman Spectrometer.

Strength :

ANATEK SERVICES has excellent product line from world-renowned companies JASCO, KYA Tech and Biologic Instruments, France, Ramay System, US.A. These companies are synonymous with quaaity and precision, and are highly rated in the innterantional market of analytical instruemtns. Moreover ANATEK biggest strength is the excellent support of M/s. JASCO, a company with a large application laboratory in Tokyo to receive and analyse samples from all over the world. It has already generated a large data base in the chromatography and spectroscopic filed. ANATEK has always ensured to hire the best talents in the filed. A team of highly motivated engineers ensure result-oriented performance and a strong service network enables the company to be accessible to its cl

We, at ANATEK are always endeavoring to provide high performance quality products at competitive prices.
