

## All about Eppendorf

**Eppendorf** is a life sciences company which develops, produces and distributes systems for use in life-science research laboratories worldwide. Our products are aimed at academic and commercial research institutes as well as industrial companies in the field of biotechnology or in other sectors using biotech research processes.

Eppendorf's range of products includes pipettes, dispensers, and centrifuges as well as consumables like sample tubes and pipette tips. In addition, Eppendorf offers instruments and systems for cell manipulation, automated devices for liquid handling, complete equipment for DNA amplification as well as biochips.

In 2007, **New Brunswick Scientific** became a member of the Eppendorf Group. New Brunswick manufactures a wide range of equipment for cell growth, detection and storage, with products ranging from biological shakers, fermentors and bioreactors to CO<sub>2</sub> incubators and ultra-low temperature freezers.

**Eppendorf India Limited** is an Indian arm of Eppendorf AG, Germany. Head quartered in Chennai, Eppendorf India has branch offices in all the major cities. Eppendorf India sells the entire range of Eppendorf and NBS products.

Main attraction of head quarters is an applications lab and a training centre apart from sales and marketing offices. Eppendorf India can train customers on specific high-tech topics such as realtime PCR and liquid handling automation. Moreover, the lab will also serve for demonstration purposes as a continuing exhibition of state-of-the-art research tools.
