- IAIA meeting during IPC 2008

We pay our heartfelt tributes to all those who lost their lives in the senseless Mumbai Massacre. They died so that we could live.

IAIA invites new members

Indian Analytical Instruments Association was formed eleven years ago to work for the benefit of the organizations promoting analytical instrument business and the scientific community, with a charter, '**Serving science through analytical instruments**'. The objectives of the association are to foster close interaction among members, promotion of new analytical technologies in instrumentation and reach out to the user community for dissemination of knowledge and overall development of the Industry.

Over the years the association has achieved success in realizing its objectives set forth initially. A major area of thrust of the association has been in organizing exhibitions and seminars. The first Anacon Exhibition held at Mumbai in 1997 was a huge success which attracted the attention of International Messe-und Ausstellungsdiens GmbH (IMAG).

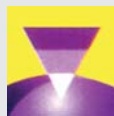

Leveraging its association with IMAG, IAIA successfully organized Analytica Anacon 2006 at Bangalore. The year 2007 saw the Analytica Anacon being held at the life sciences and pharma hub of India, Hyderabad in October 2007. The next edition of Analytica Anacon will be held at Hyderabad during September 29 -October 1, 2009.

IAIA invites companies manufacturing or dealing in analytical and life science instruments to join as its corporate members. The benefits of corporate membership are many. A few are worth mentioning:

- 10% discount for Analytica Anacon shows
- Applicable discounts for other shows sponsored by IAIA
- Your company profile in the web site of IAIA
- Preference in proposing speakers for Anacon seminars
- Display of your brochures in international shows participated by IAIA
- Discounts on fares for visiting international shows where applicable
- Invitation to attend special meetings/ workshop organised by IAIA.

The corporate membership fee is very nominal, it is only Rs. 25,000. Please write to IAIA for more details

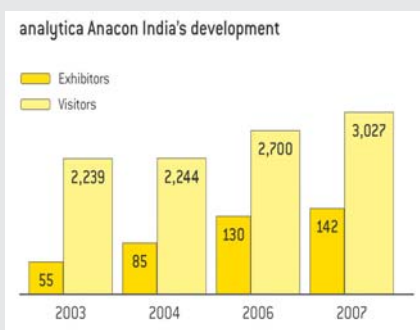

Analytica Anacon 2009

Sep. 29 - Oct. 01

5th International Trade Fair and Conference for Analysis,
Biotechnology, Diagnostics, Laboratory Technology and Services

Analytica Anacon India has been growing in stature over the years, thanks to the overwhelming support from all participants, exhibitors and visitors. The shows offer an excellent opportunity for manufacturers to show case their new products and services in this part of the world and are gaining importance on the lines of international shows like PITTCON, JAIMA & Analytica Germany with a steady growth in floor space for exhibitions, number of exhibitors, visitors and registrations achieved.

Following the success of the show held in 2007 at Hyderabad, IMAG-IAIA have decided to host the 2009-show at Hitex Exhibition Centre, Hyderabad which is home to India's biochemical and pharmaceutical industry. Designed by leading German architects, HITEX Exhibition Centre offers a world-class infrastructure and serves as a one-stop source attracting a large number of exhibitors.

Floor plans are under preparation and corporate members of IAIA are requested to give their space requirements to Sonia Prashar, IGCC, New Delhi, Tel : 011-26878721 / 26111730, Fax : 011-26118664 Email : soniaprashar@indo-german.com. Copies of the brochures on the show can also be sent upon request.

Call for abstracts for Analytica Anacon 2009 symposium

As the co-organizers of Analytica Anacon show, it is the responsibility of IAIA to organise symposium during the three days, an event which helps in bringing in more registrations. The symposium on 'Recent Advances in Chromatography, Mass Spectrometry and Spectroscopy' in 2006 had 19 experts from all over the world speaking on instrumentation and applications. The theme for the year 2007 was: 'Analytical Instrumentation: Enabling Technologies for Pharmaceutical and Life Sciences'. Thanks to the active participation by all the corporate members and visitors, the three day symposium was packed with presentations from 25 international experts on various topics covering pharmaceutical analysis, life science instrumentation, material research, new developments on chromatographic methods, hyphenated techniques etc.

The increasing response for the symposium and the advance registrations received through our website, well ahead of the show, has encouraged us to plan more presentation slots in 2009, thereby giving opportunity to the users of these instruments in India and product experts from the Indian Companies.

The theme for 2009 symposium will be 'Analytical Instrumentation - Building a better quality of life for India'. The symposium will feature two parallel sessions offering 40 slots for speakers. One unique feature of 2009 symposium will be the poster session for students and research scholars, with suitable awards for the best posters. As we have already started working on the program of the symposium, we request our corporate members to book slots for their speakers giving abstract of the presentation and profile of the speakers.

IAIA has started getting recognition from various international associations of analytical instrument companies. In 2008 IAIA was invited to a number of trade fairs and conferences for making presentation on the current trends on analytical instruments market in India. The Analytica Munich 2008 held during April 1-4, 2008 featured an exclusive booth for IAIA attended by Dr.G.Ramakrishnan and Gautham Rajan. Dr Ramakrishnan gave an overview of the Indian analytical instrument market in one of the well attended sessions.

The Japan Analytical Instruments Manufacturers Association invited S.Thyagarajan and C.Ravindranath for JAIMA 2008 show held during September 3-5, 2008. S.Thyagarajan spoke about the growing opportunities in Indian market during the evening banquet. The Analytica China 2008 held during September 23-25, 2008 offered a complimentary booth for IAIA and Dr.G.Ramakrishnan, S.Thyagarajan and C.Ravindranath manned the booth, promoting Analytica Anacon 2009 among the Chinese manufacturers. Copies of the IAIA's Souvenir on 'Market Dynamics of Analytical and Life Science Instrumentation in India' were liberally distributed during the shows and the response was very positive.

Analytica Munich 2008

Jaima Show 2008

Analytica China 2008

ACHEMA 2009

29th International Exhibition-Congress on Chemical Engineering, Environmental Protection and Biotechnology, Frankfurt, Germany, May 11-15, 2009.

IAIA has tied up with Orbitz Business Tours to secure special rates for its members who are willing to participate in ACHEMA2009. All corporate member companies of IAIA are eligible for a discount of Rs. 5000 per person and Orbitz have offered attractive Packages for Indian Exhibitors/Full Duration Visitors. The offer is valid for all bookings done on or before 31 Dec 2008.

Analytica Vietnam

March 18 - 20 , 2009

1st International Trade Fair and Conference for Analysis, Biotechnology, Diagnostics, Laboratory Technology and Services

The Vietnamese analysis and biotechnology market needs an outstanding platform for its rapid growing business. Analytica Vietnam will be the leading event that satisfies this requirement. This will be the exhibition of choice for global manufacturers, distributors and service providers for analysis, biotechnology, diagnostics and laboratory technologies.

Indian Equipment manufactures have an excellent opportunity to show case their products. IAIA welcomes companies who are interested to display their products or visit Analytica Vietnam 2009 or write to iaia@rediffmail.com. For brochure on the show and more details you may also contact Eva Linner of IMAG at eva.linner@imag.de Ph +49 89 949 22120 or Fax +49 89 949 22350

The Indian Analytical Industry

Hall of fame 2009

IAIA Life Time Achievement Awardees
Analytica Anacon 2007

On the eve of celebrations regarding the “Decade of Service of IAIA” last year, the association decided to recognise the contributions of veterans in analytical instrument industry in India by giving Life time achievement awards under three categories - Manufacturers, distributors and professionals whose dedicated efforts for decades have contributed to the development of markets for new technologies. Thus the “Indian Analytical industry- Hall of Fame 2007” was born with with ten experts being adorned with the coveted awards.

Following this well appreciated and widely acclaimed effort from IAIA, it has been decided to honour a few more noted personalities during Analytica Anacon 2009. All corporate members are hereby invited to make nominations in these three categories to IAIA for selection to The Indian Analytical Industry -Hall of Fame 2009.

IAIA meeting during IPC

Utilising the opportunity of having many members being available during IPC 2008 at Delhi, it has been decided to have a meeting during lunch time on Saturday, December 13.

IAIA welcomes all those interested to join as corporate members, as special invitees for this meeting. For the convenience of all, we shall hold the meeting at the venue of IPC.

Please write to us with your confirmation on participation at iaia@rediffmail.com, giving your mobile number. We shall get in touch with you on Dec 12 - 13 and provide you the exact time and place. At the venue you may also contact Sowmya 093811 54333 for details. Snacks will be served during the meeting.

Office bearers of IAIA

Dr. G.Ramakrishnan
President

C.S.Shetty
Treasurer

S.Thyagarajan
Vice President

Dr. Prashant B.Shetkar
Committee Member

Dr. Ashes Ganguly
Vice President

C.Ravindranath
