

Who We Are

Toshvin Analytical Pvt. Ltd. is one of the leading companies in India in the field of analytical and laboratory instrumentation. For over 60 years (previously as Toshbro Ltd.), we have been at the forefront of bringing the latest, most sophisticated range of instruments to Indian companies from leading manufacturers around the world. Our product range combined with our unsurpassed commitment to customer service has made us one of the renowned companies in the field of instrumentation since 1948.

We are headquartered in Mumbai and have a network of 12 sales & service offices nationwide. Our strong commitment to after sales support, over 61 years experience in understanding and meeting our customer's requirements and sustained emphasis on customer satisfaction has resulted in a loyal base of customers throughout the country.

Our Mission:

To improve quality of life by contributing to the development of Indian Industry and the scientific community by providing high technology, high quality instruments, systems and solutions.

Our Mission will be achieved by being ethical and fair towards all stakeholders, investing in the development of our employees and following a human approach to business. To be recognized as a customer oriented high quality solution provider offering a diversified range of instruments and systems and be one of the top 3 leaders of all the products we supply.

Our Vision:

To be recognized as a customer oriented high quality solution provider offering a diversified range of instruments and systems and be one of the top 3 leaders of all the products we supply.

Our Principals and Products

UV-VIS Spectrophotometer	Gas Chromatographs
FTIR Spectrophotometer	GCMS
Atomic Absorption Spectrophotometer	Spectrofluorophotometers
Thermal Analysis Instruments	ICP

High Purity
Water Purification Systems

Chromatography
Consumables & Accessories
