

**Corporate Profile**  
**Marsap Services Pvt. Ltd.**  
**and**  
**Anamed Instruments Pvt. Ltd.**

We are a group of companies in the business of analytical instruments for the last 32 years. Under Marsap Services Pvt. Ltd., we represent world-class manufacturers of instruments for use in the Oil/Gas Industry and also Drug Discovery and Pre-clinical Research. Anamed Instruments Pvt. Ltd., is a leading Indian manufacturer of Precision and Analytical Electronic Balances as well. We are a team of 20 people (+ 30 in production) spread over four offices (Mumbai, Delhi, Calcutta and Bangalore) covering all parts of the country.

**Anamed Instruments** is the pioneer in the manufacture of precision electronic balances. We have many firsts to our credit, some of them being:

- The first to manufacture precision balances in India
- The first to manufacture a moisture balance in India
- The first to manufacture a cocoon balance in India
- The first to manufacture an autosorter in India
- The first to manufacture a coal analyzer in India

As an ISO 9001:2000 certified company, we take pride in the quality of our products which are tested under stringent controls at every stage of the process.

**Marsap Services** is one of the oldest distributors of hi-tech lab and analytical instruments in India – having established its business in 1974. Over the years, we have evolved to meet the needs of a changing market and tailored our product range to fulfill the needs of the customer of the day. Currently, we focus on oil/gas and drug discovery – both of which have seen tremendous growth in the last few years.

In the Oil and Gas segment, we focus primarily on physical property testing of petroleum products and represent the following companies

- **SRA Instruments:** MicroGC (Lab and Process) for Natural Gas, Refining, Thermal and Nuclear Power Plants, Oil and Gas Exploration
- **PSL Systemtechnik:** Research and quality control systems for oil exploration, pipelines, etc.
- **Petroleum Analyzer Company – consisting of Walter Herzog GmbH, ISL France, Alcor, Antek, PSPI and Petropsec**
  - Lab automatic and manual physical property testing of petroleum products (Sri Lanka only)
  - Process/online physical property testing of petroleum products (India and Sri Lanka)
  - Total Quality Assurance Systems for CO2 (India and Sri Lanka)

In the Drug Discovery Segment, we focus on instruments used for pre-clinical research and cover almost the entire spectrum of activity from Animal Housing to Safety Pharmacology:

- **Harvard Apparatus – (consisting of Harvard, Warner Instruments, Hugo Sachs Elektronik:** A wide range of instruments for pharmacology, toxicology, cell biology, electrophysiology, animal physiology, animal surgery, animal physiology and many others
- **IITC Life Science:** Non-invasive blood pressure systems and pain testing instruments
- **Coulbourn Instruments:** A large range of equipment for all types of behavioral research
- **CMA Microdialysis:** World leaders in research and clinical microdialysis systems for DMPK studies
- **Iworx/CB Sciences:** Data Acquisition Systems for teaching and research
- **Multichannel Systems:** Multi Electrode Array (MEA) systems for Qt – interval screening
- **Sophion:** Automated Patch Clamp Systems
- **Instech/Solomon:** Automated Blood Sampling Systems for DMPK and other infusion systems
- **Union Biometrica:** Large Object Flow Cytometers
- **Moor Instruments:** Laser Doppler Blood Flow Measurement systems

We take pride in the fact that we have a large number of customers, who are very happy – with both the products we sell and the support we provide.
